DETAILED ACTION

Drawings

1. The drawings filed February 25, 1983 are acceptable.

Information Disclosure Statement

2. The Information Disclosure Statement filed April 5, 2005 has been entered and considered. An initialed copy of the PTO-1449 by the Examiner is attached.

Allowable Subject Matter

3. Claims 1 and 5-17 are allowed.

Examiner's Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The prior art fails to render obvious the claimed monopulse radar tracking system including, inter alia, means for determining the frequency error between the target signal frequency and the center of the two derived bin characteristics and sliding the two derived bin characteristics to re-center them on the new position of the target signal.

Exemplary of the prior art, as shown by US 3728723 A to Gellekink, monopulse tracking systems including a Doppler tracking loop are well known. See Figure 1 reprinted below:

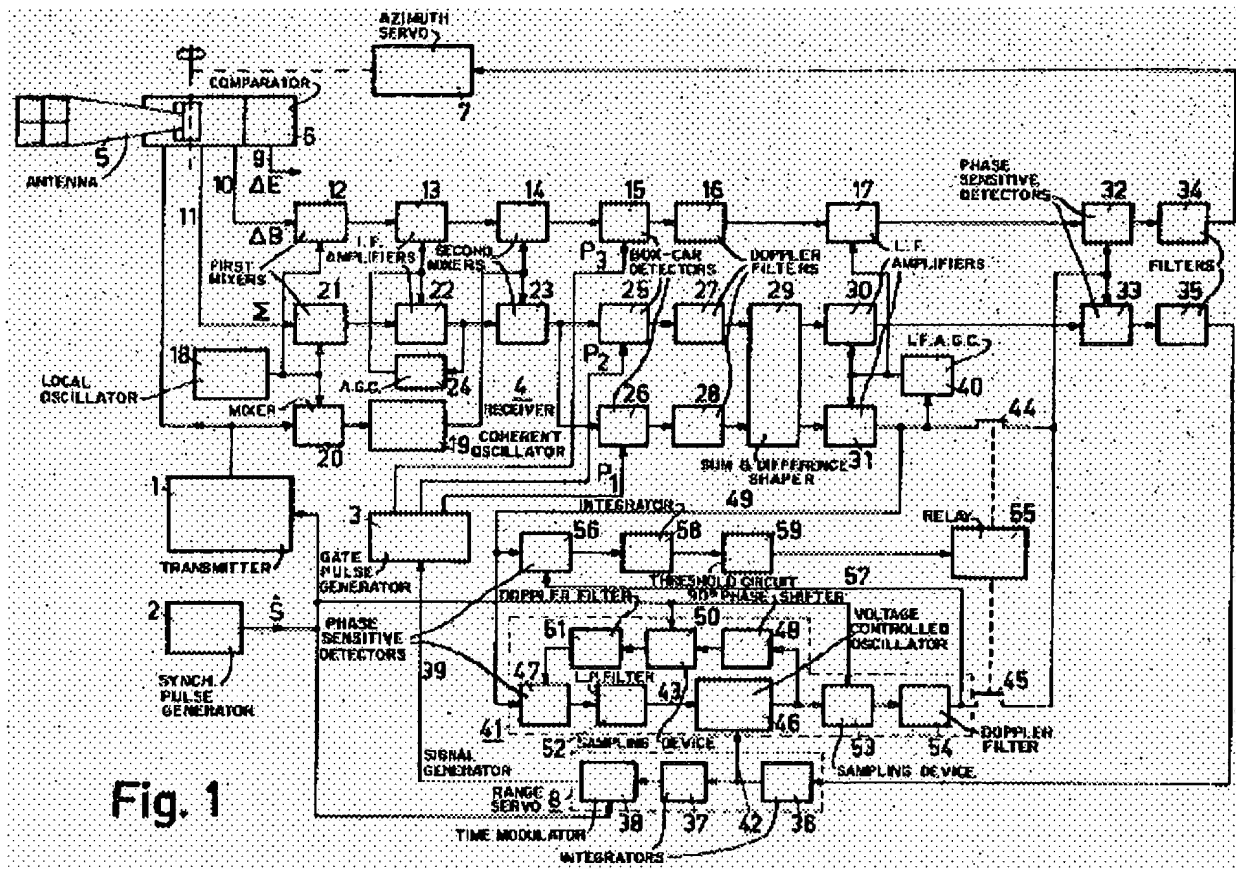

Fig. 1

However, the manner and means for determining the error in the target frequency estimation cannot fairly be rendered obvious by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art show various radar systems.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B. Sotomayor whose telephone number is 571-272-6978. The examiner can normally be reached on Monday to Friday from 8:30AM to 5:00PM.
